David Solomon, Chief Enforcement Division Federal Communications Commission 445 12th St. SW Washington, DC 20554

Re: Leap's 5th E911 Quarterly Report

Gentlemen:

Pursuant to the Commission's July, 2002 <u>Order to Stay</u>, Leap Wireless International, Inc. (and its Cricket Communications subsidiary) respectfully submits its fifth Enhanced 911 ("<u>E911</u>") quarterly implementation report for the period ending November 1, 2003. As you may be aware, Leap filed a voluntary petition for relief under Chapter 11 but, despite our financial restructuring process, we continue to aggressively proceed with the E911 compliance and mandates.

 $^{^1}$ See Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911, Order to Stay, CC Dkt No. 94-102 ¶¶ 28-30 (rel. July 26, 2002) (the "July Order").

1. Status of Pending Requests

As of October 31, 2003, Leap provides Phase I service to 170 PSAPs in 13 states and Phase II to 51 PSAPs in 4.

In accordance with the FCC public Notice released on June 6, 2003, CC Docket No. 94-102, attached is Appendix A that lists PSAP requests for Phase I or II deployed, pending, and requests for Phase I or II that are not within Leap's coverage area.

Leap has 5 Phase I requests that are currently in the process of deployment. In our last report, there were two PSAP requests that were older than six months; Columbus, Georgia PSAP and Union, North Carolina. Both of these were deployed. Additionally, we resolved the issue with the Spokane, Washington PSAP and were able to reinstate Phase I. The ANM message is being sent.

Leap has 16 Phase II requests that are currently pending. These requests will be deployed within the 6-month timeframe or a mutually agreeable timeframe with the PSAPs as noted in the "Projected Deployment Date" column on Appendix A.

2. Status of Handset Deployment

Leap began selling an ALI handset (Kyocera 2325 model) on June 30, 2002. On February 2003, Leap began selling the Motorola v120e model and we exceeded the May 31, 2003 benchmark of 25 percent of new subscribers activating service with ALI-capable handsets. We obtained a 32 percent penetration of new subscribers totaling 111,300 handsets. Since our last quarterly report, Leap has added the following two ALI handsets to their distribution: Motorola T720c and the Kyocera KE413. With this distribution of handsets we are on track of meeting the next handset benchmark on November 30, 2003 of 50 percent of new subscribers activating service with ALI capable handsets.

* * *

As required in the July Order, Leap is providing this implementation report to the Association of Public Safety Communications Officials (APCO), the National Emergency Numbering Association (NENA) and the National Association of State Nine One One Administrators (NASNA). If any recipient of this report should have questions or comments concerning the information contained in the report, they should contact Laurie Itkin, Director-Government Affairs, at 858-882-6226.

Please note that I am an officer of Leap. Please note also that this notarized Report will, in accordance with the July Order, serve as an affidavit authenticating the facts set forth herein.

I swear under penalty of perjury that the facts set forth herein are true and correct to the best of my knowledge information and belief.

Glenn Umetsu

Senior Vice President— Engineering & Operations

Cc: Laurie Itkin

James Barker, Esq.
